The Struggle Against the Insurrection Is Hopeless.

THE CONCEDING OF AUTONOMY.

It is the Only Means by Which Spain Can Avoid Losing the Island—The Cubans Are Jubilant—No Startling News Permitted to Be Sent Out From Havana, Colombia's Sympathy.

NEW YORK, Aug. 29.—A special to the World from Kingston, Jamaica, says: Captain General Martinez de Campos has written to the Spanish consul here, it has leaked out, that the struggle against the insurrection in Cuba is hopeless.

The conceding of autonomy, he adds, is the only means by which Spain can avoid losing the island.

The Cubans here are jubilant.

Havana Dispatches.

HAVANA, Aug. 29.—The alarming news received yesterday that 3,000 insurgents had taken Fomento and Puerto Principe is officially declared to be untrue. Sanchez is said to be wandering in the mountains about Trinidad and Roloff, to be near San Ambrosia, while Suarez and Sayzas are six miles from Fomento.

Colonel Polanac went in pursuit of a body of insurgents in the district of Sagna Lagrange, and made prisoners Doctors Figueredo and Alay and two sons of Gerard, Antonio and Miguel, Basail and Johnsons.

At Cienfuegos four boys, 12 to 14 years old, ran away to join the insurgents. Their father notified the government and they were pursued and brought back.

Want the Patriots Recognized.

COLON, Colombia, Aug. 29.—A resolution has been presented by the municipality of Panama asking the other municipalities of Colombia to join in a petition to the government asking it to recognize the Cuban patriots as belligerents.

AFTER A TEN DAYS' ILLNESS

A Well-Known Builder of Public Buildings Passes Away.

NEW YORK, Aug. 29.—After an illness of 10 days Henry Spalding Willes, aged 73, well known for many years as the builder of public buildings, died yesterday. He was seized with apoplexy on Aug. 19, and has been lying in a critical condition ever since.

Mr. Willes was a son of General Henry Willes of Tioga Point, Pa. Probably the greatest work of the firm of Willes & Company was the erecting of the waterworks of Brooklyn, a contract of \$5,000,000. Mr. Willes was one of the proprietors of the Portage and Lake Superior Ship Canal company in Michigan. The deceased leaves a widow, two sons and a daughter.

REVENUE OFFICERS' RAID.

An Illicit Still Found in the Heart of New York City.

NEW YORK, Aug. 29.—Information reached the third district internal revenue office yesterday that an illicit still was in operation at 243 Rivington street. A squad of revenue officers were at once dispatched there, and found an illicit distillery in full operation.

Four men who were at work on the place were arrested and nine barrels of mash, a lot of contraband liquors and the articles used in the still were seized and carted off by the officers. The names of the prisoners are Dirsoll, Stroh, Fortman and Kintner. They were arraigned before United States Commissioner Alexander and were held.

THREE HUNDRED KILLED.

Further Particulars of the Destruction of the Village of Dospat.

CONSTANTINOPLE, Aug. 29.—Details have been received here of the recent attack made by a band of Bulgarians upon the Mohammedan village of Dospat, across the Turkish frontier, in the Rhodope mountains, as exclusively cabled to the Associated Press on Aug. 16.

The attack, it appears, occurred at dawn while the villagers were asleep. The Bulgarians used dynamite bombs and set fire to the houses when the inhabitants tried to escape. Men, women and children, it is claimed, were killed indiscriminately, and, according to one version of the affair, 300 persons perished.

Where They Can Fight.

EL PASO, Tex., Aug. 29.—It is understood that matters have been fixed at City of Mexico with the federal officials so that the Corbett-Fitzsimmons fight can be pulled off in Juarez, across the Rio Grande from El Paso. Governor Asumada of Chihuahua favors having the fight at Juarez, but has been held back by President Diaz heretofore. Twenty thousand dollars, Mexican money, must be put up as a guarantee for local expenses and evidence of good faith.

Great Britain Protecting the Seals.

WASHINGTON, Aug. 29.—The report from London that the British government has issued orders for the prohibition of seal fishing in certain of the Russian waters indicates to the state department officials that Great Britain has entered into an agreement with Russia similar to that proclaimed between the United States and Russia on the 12th of May, 1894.

A Grippe the Cause.

VERNON, Ind., Aug. 29.—Oscar Hill, colored, attempted suicide by cutting his throat, the result of a grippe.

THEIR BOAT UPSET.

Four Persons Drowned in the St. Clair River, Near Marysville.

PORT HURON, Mich., Aug. 29.—An accident occurred on the St. Clair river, near Marysville, during a squall and rainstorm yesterday afternoon, in which four persons lost their lives. A picnic was being held at Stag island, opposite Marysville, and Mrs. Michael Derufg, and Frank Derufg, her brother-in-law, and three young ladies, Miss Celia Chonliski, Minnie Schvenhart and Edith Comier, rowed over early in the day. When the storm was seen coming up, they started back for home, but when within 400 feet of the shore the squall struck the little craft and capsized it.

Miss Schvenhart, a girl of 15, clambered upon the boat, but the other three all got hold of Frank Derufg. For a while he held on to the overturned boat with one hand and made a heroic battle for life, but when one of the women, in her desperation, got hold of his free hand, the handicap proved too much, and he had to let go, and all four sank to the bottom. The Schvenhart girl clung to the boat and was rescued later by some boys. Mrs. Derufg leaves a husband and two small children. The two young ladies were each about 20 years of age.

Crooked Contractor Caught.

CLEVELAND, Aug. 29.—The Cleveland police received a telegram yesterday from Buffalo saying that a man claiming to be Frederick Kroeger of this city had been arrested there on suspicion while trying to sell a horse and buggy very cheaply. An investigation revealed the fact that he was a carpenter contractor and fled from Cleveland last Friday after drawing \$600 on uncompleted work he was engaged on. His bondsman, Henry Dipple, estimates that Kroeger has possibly made away with \$1,300 by drawing money on estimates of work and failing to pay for material and labor.

Knights Templar.

BOSTON, Aug. 29.—Business and pleasure combined to take up the time of every Knight Templar yesterday and last night. The conclave and its attendant ceremonies were in full blast. Everywhere receptions were held and the Sir Knight who was venturesome enough to attend them all would find himself heavily laden with souvenirs. The members of the grand encampment are all busy preparing for the election of officers and private meetings for consultation are frequent.

Fresh Outbreak of Diphtheria.

BEDFORD, Ind., Aug. 29.—The epidemic of diphtheria, which was thought to be checked, has broken out afresh in the business center of the town, making its appearance in the family of Mr. Pruitt. In no instance has a patient recovered. The public schools are expected to open on Monday next, but there will probably be a delay on account of this fresh outbreak. Rigid quarantine measures are being enforced.

New York Firm Assigns.

NEW YORK, Aug. 29.—Spellman Brothers, importers and dealers in fancy goods, 361 and 363 Broadway, made an assignment yesterday to S. V. White for the benefit of creditors. The firm has been in existence about 50 years and carried a stock valued at between \$200,000 and \$250,000. Liabilities and assets are about equal.

Confessed to His Cell Mate.

SACRAMENTO, Cal., Aug. 29.—The authorities believe they have found the man who robbed the stage at Bloomfield last October and killed the driver, Arthur Meyers. The man is Thomas Laughey, alias Laughlin, now in the Orville county jail for petit larceny. Laughey is said to have confessed to his cell mate.

Cheaper to Feed.

FRANKFORT, Ind., Aug. 29.—Mayor Sims has issued orders for the police to arrest all suspicious characters found on the streets during this (fair) week, saying that it is cheaper to feed them in jail than for the people to be annoyed by larcenies. The jail resembles a beehive, so many arrests having been made.

Retail Liquor Remonstrances.

COLUMBUS, Ind., Aug. 29.—Committees of ladies are circulating remonstrances in the First, Second and Third wards, to be presented to the county commissioners, protesting against the granting of liquor licenses to any of seven applicants in those wards. The ladies are not sanguine of success.

Fourteen Were Killed.

IVREA, Italy, Aug. 29.—It now appears that 14 persons were killed and a number were injured by the fire which broke out in the church at Biobio, caused by the explosion of a lamp, and which spread to the pilgrim shelter, adjoining the church, where most of the persons were burned to death.

Armour & Company's Agent Arrested.

MUNCIE, Ind., Aug. 29.—Robert Vieker, local agent of Armour & Company of Chicago, was arrested last evening on a charge of embezzling \$13 belonging to the company. He furnished bond in \$1,000 and will have a hearing next week. The arrest caused great surprise.

An Arab Village Destroyed.

CONSTANTINE, Algeria, Aug. 29.—There was a cloudburst yesterday evening in the district of Sidiach, which caused enormous damage. An Arab village was destroyed, 14 persons were killed and 16 others severely injured have been removed from the ruins.

Train Robbers Plead Guilty.

OMAHA, Aug. 29.—The Union Pacific train robbers have pleaded guilty and been sentenced to 10 years in the penitentiary.

CYCLONE DAMAGES.

Great Destruction Done in Central New York.

SEVERAL PERSONS INJURED

Upturned Boats Found on Lake Onondaga and It Is Thought That Fishermen and Pleasure Parties May Have Been Drowned—Cloudburst in Illinois Causes the Death of Two Children.

SYRACUSE, Aug. 29.—A cyclone of hail, wind and rain struck this city at 5 o'clock yesterday afternoon. It lasted not more than a half hour, but in that time hundreds of dollars' worth of property was destroyed and several persons injured. The storm caused the greatest damage in the center of the city, trolley cars were blocked and telephone, telegraph, police and fire alarms were blown down. Among the injured were John O'Hara, an engineer for the Consolidated Street Railway company, who was caught beneath a falling chimney. He may die.

At the annual fair of the State Agricultural society at Lakeside thousands of dollars' worth of property was destroyed. Several persons were injured by falling tents and buildings. Victoria, a trained lioness, in a frenzy bit her trainer, Professor DeCansey, in the back. He will recover. The storm came from the northeast. Several upturned boats have been found on Onondaga lake, and it is thought that fishermen and pleasure parties may have been drowned.

BLOOMINGTON, Ills., Aug. 29.—A cloudburst, accompanied by a tornado, swept the vicinity of Bloomington yesterday afternoon, raging torrents filling the dry water courses in a few minutes, sweeping away trees and the tents at the Wild West show at the fair grounds. Five thousand people were panic-stricken and drenched, but miraculously escaped injury and death. A ravine near Miller park filled and overflowed Morris avenue.

Mesdames Judie and Roberts of Heyworth were driving home with their two daughters, aged 2 and 7 respectively, when their buggy was swept from the bridge by the flood. The children were doomed and the two women were rescued with great difficulty. Streams in the country have filled the valleys so as to almost swim horses.

LOOKING FOR AN HEIR.

Parker Pearson Valentine Has Been Hiding For Twenty-Five Years.

SAN FRANCISCO, Aug. 29.—Parker Pearson Valentine, who was last heard of in Colorado, is the heir to about \$100,000 worth of property left him by his mother, Lucy A. Valentine, who died in Wisconsin recently. Valentine left Minneapois to escape arrest for murder 25 years ago. In the probate court yesterday the public administrator desired to secure the administration of that part of Mrs. Valentine's estate located in this county, valued at about \$30,000.

Young Valentine married against his mother's wishes and in a few months discovered evidences of his wife's unfaithfulness and killed her lover. He obtained no sympathy from his mother, and he left Minneapolis never to return. She sought for him in vain. In making her will, besides bequeathing him all her property, she established a trust fund to be used in searching for the missing son. If he is not found the property all goes to St. John's home in Milwaukee. The case was continued for two weeks to obtain necessary evidence from Wisconsin.

ONE DEAD, ANOTHER DYING.

Results of the Labor Riots at Wapakoneta, Ohio.

WAPAKONETA, Aug. 29.—The terrible riot of Tuesday is being discussed on every street corner in this city, where groups of men are gathered. Joshua Tiller, the leader of the strikers, a powerful man, and from his statement one that has been in a dozen riots and claims Pittsburg as his home, died yesterday from the effects of the shot he received. He was 50 years old.

Albert Siford, a citizen of this city, who was also shot by Lou Vansker, can not recover. Vansker is very low from the clubbing he got, and the doctor fears that blood poisoning may set in. The mayor has sworn in extra police, which may be needed, as the sympathy is about evenly divided.

OSBORN DOOMED.

An Idaho Town Surrounded by Forest Fires.

WALLACE, Idaho, Aug. 29.—Osborn is surrounded by immense forest fires, and is momentarily threatened with destruction. In response to a telephone message the fire department with entire apparatus was loaded aboard a special train and has left to assist the neighboring town.

Osborn is situated, like all the towns in the Cour d'Alene district, in a deep canyon, with mountains on both sides, heavily timbered and with dense forest ablaze on both sides, it is more than likely that the town is doomed. Fears are strengthened by the fact that communication can not be had with the committee on itinerary. Work is progressing on the platform car that is to carry the bell and it will be ready in a short time.

SALT LAKE CITY, Aug. 29.—Heber M. Wells has been nominated for governor by the territorial Republican convention.

NEW YORK, Aug. 29.—Robert A. Burch, managing editor of the Brooklyn Eagle, died yesterday at the age of 41 years. He was at one time managing editor of The Evening Post of this city.

ONLY ONE ROUND.

Joe Walcott of Boston Knocks Out Dick O'Brien of Lewiston.

BOSTON, Aug. 29.—Dick O'Brien of Lewiston, champion middleweight of New England, was knocked out in the first round of what was to be a 25-round bout by Joe Walcott, colored, of Boston, yesterday evening. The fight was the feature of the second evening in the Farragut club's carnival at the West Newton street armory. More than 3,000 spectators were present. It was no secret that last night's fight was for blood, as O'Brien, whose only defeat was at the hands of Walcott a year ago, was determined to retrieve the lost honor, while Walcott was just as determined to retain what he had won.

O'Brien weighed in during the afternoon at 150, while Walcott was 12 pounds lighter. O'Brien also had about five inches the better of height.

The fighting was sharp from the start, O'Brien for a send-off landing his left on Walcott's jaw, and his right on the stomach. Walcott then straight-countered, and almost immediately landed a telling blow on O'Brien's jaw and the Lewiston man went down. He recovered quickly, however, and both went at it again in a rapid manner, but Walcott again found an opening and floored O'Brien, who again recovered his feet for the second time, but the next instant Walcott planted a left on the heart and a right on the jaw, and O'Brien fell and lay on the floor. When eight seconds had been counted the gong rang for the end of the round. As O'Brien then showed no evidence of being able to proceed, Referee Captain Bill Daley gave the decision to Walcott.

WATER POWER OF NIAGARA.

First Practical Application of the Great Electric Dynamos.

NIAGARA FALLS, N. Y., Aug. 29.—Yesterday the first practical application of the electricity generated by the water power of Niagara to industrial pursuits was made when the first batch of aluminum was turned out from the Pittsburg reduction company's new works here. A number of newspaper men and others were present by invitation to witness the process of electrolysis of the metal, souvenirs of the uses of which was afterward distributed among the guests.

The current supplied to the reduction company is of 2,300 volts, and the present capacity of the works is about 5,000 pounds of pure aluminum a day. This will be increased as rapidly as more pots can be set in position, till a capacity of 10,000 pounds is reached. The metal is worth in small quantities 50 cents a pound. The works will be run day and night and seven days in the week.

LOUDBURST IN ILLINOIS.

Two Children Drowned and a Vast Amount of Property Destroyed.

BLOOMINGTON, Ills., Aug. 29.—A cloudburst, accompanied by a tornado, swept the vicinity of Bloomington yesterday afternoon, raging torrents filling the dry water courses in a few minutes, sweeping away trees and the tents at the Wild West show at the fair grounds. Five thousand people were panic-stricken and drenched, but miraculously escaped injury and death. A ravine near Miller park filled and overflowed Morris avenue.

THE New South, the Louisville organ of the colored Republicans, takes Mr. Bradley to task for asserting that the colored people do not want equal privileges with the whites. It says the colored people do want that very thing, and that Mr. Bradley made a mistake when he said they did not. Bradley thinks the colored Republicans will vote for him anyhow, and he is making such talk to catch a few Democratic suckers. He knows there is no show for him to win unless he can rope in a few Democrats. The question is, are the Democrats fools enough to be caught by his twaddle?

COL. W. O. BRADLEY will soon have as big a fight on his hands as Gen. Hardin, from present indications. The New South, the organ of the colored Republicans in this State, has this to say to Mr. Bradley's statement that he was opposed to a bill giving colored people social equality:

Col. W. O. Bradley made a mistake when he said the colored people did not want equality of rights. They do. They despise separate coaches and barbarous discrimination, and we hope the eloquent and great Republican standard-bearer will keep this in view.

The "eloquent and great Republican standard-bearer" has repeated that he is not in favor of any such "equality of rights." The colored Republican is a numerous quantity in the Kentucky g. o. p. and it will go rather hard for him to vote for a man who talks as Billie O. Bradley has been talking.

GALLIPOLIS WON.

The Closing Game at That Point resulted in a Score of 11 to 2 in favor of the Ohioans.

The closing game at Gallipolis yesterday resulted in a score of 11 to 2 in favor of the Ohioans.

Bieman's arm has been troubling him since the last game at Huntington, and he was unable either to pitch or play in the field. Wellner was sick but went into the box, and put up a fine game until the seventh inning. Up to that point in the contest, the Gallipolis boys had got but three or four hits. In the seventh, however, he was feeling so bad that he just floated the ball over and the Ohioans batted out seven runs. Wadsworth finished the game. The boys say Wellner ought never to have gone into the box. This coupled with the fact that Dick Smith, of the Huntingtons, pitched for Gallipolis explains the one-sided score.

The Police Gazette, one of the leading sporting papers of the land, will have a picture of the Maysville ball team in its issue next week.

The Maysville boys say one of the worst deals they have yet received was at Gallipolis. The crowd was allowed to push up to the lines, and the language used by the rooters was anything but choice. The boys expect the worst of the umpiring when they go away but they got a little too much of it this trip. The fellow who inspired the game won by Maysville at Huntington admitted after it was all over that he "tried to rob them out of it."

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

LOTS O' TROUBLE

In the Ranks of the Republicans at Louisville.

Hon. A. E. Willson Roasts the A. P. A.'s—Leaders Refuse to Vote the Ticket.

The Republicans of Louisville held a convention one night this week; that is they started to do so, but the meeting was soon in confusion, and Hon. A. E. Willson, a prominent candidate for the U. S. Senate, Col. Andrew Cowan, Hon. James F. Buckner, Hon. Matt O'Doherty and others among the most prominent in the party left the hall and openly announced that they and their friends would not support the ticket placed in the field.

The A. P. A.'s got control of the convention and ran things to suit themselves. This was what caused the trouble.

As a result of the convention's nominations there is a big split in the Republican party. Willson, Buckner, O'Doherty and Mr. A. J. Brandeis, all of whom were delegates to the convention, say that it was not a Republican convention, but a mere Republican ratification of secret nominations "made by a band of political cut-throats and assassins."

While the confusion and excitement was at the highest the Courier-Journal says that Hon. A. E. Willson leaped out into the aisle and, with face ashen in color, began a speech. He said he had been anxious for some time as to the outcome of the convention, and he was not certain that the delegates who had been selected in a careless fashion would register the will of the Republicans of the city in the matter of selecting candidates. He said that enough had transpired in the convention hall to demonstrate to any man with half an understanding that it was the work of the secret political assassin, who, behind closed doors, had plotted against the rights of the free-born American citizens; of an association whose objects were secret, and about whose proceedings there was the slime and the miasma that could not stand the sunshine of publicity; of an organization whose work was done in the dark and behind closed doors, and who met and prepared states to foist upon the loyal, true and tried Republicans of the city of Louisville. "We will not stand this outrage," said Mr. Willson passionately, "and I, for one, desire to serve warning that I will not recognize the work of this convention and the result of the machinations of the underhanded secret political assassin."

Those of us who have stood by the party and fought its battles in years past, serve warning that we do not regard this as a convention of Republicans, and we will not bear the burden of its actions; we, who have served the party in the time of her peril will not be dominated by this order, this secret association that stabs in the dark while it fauns in the sunlight, and we serve notice that we will not abide the action of a convention that we do not consider composed of Republicans. I have no political favors to ask of you," shaking his fist defiantly in the direction of the delegates from the Eleventh and Twelfth wards, where the majority of the A. P. A. strength is said to lie, "and I want you to understand now, once for all, that I ask nothing of you, and I do not fear you or your midnight meetings. The nominees of this convention must be Republicans, time-tried and time-tested, or else they will not receive the support of me or of my friends, of whom I have many, or of those of the old Republicans, who value party principles above anything else. Right now I want you to understand, all of you, that you shall not be permitted to ride into office on the back of the Republican party in this city and county, or beneath the cloak of Republicanism to knife those who happen to differ with you in faith. In conclusion, Mr. Chairman, I desire to second the motion to reconsider the nominations just made, and to then adjourn sine die. It is better that we never make a nomination than to have the cause of the party prostituted by such infamous methods."

The Reading Circle Organized For the Year 1895-96—List of Members. Other Matters.

The institute was called to order Wednesday morning by Superintendent Blatterman. After an opening hymn the devotional exercises were conducted by Superintendent Blatterman.

"Language Lessons" was the first subject on the program. Miss Cora Barkley delivered a very interesting talk on this topic. She was followed by Miss June Pelham, P. D. Wells and Miss Bettie Hanna. Professor Shipp asked "Why teach language lessons?" with the following answers:

First, to teach the child to speak and write correctly.

Second, to increase the child's vocabulary.

Third, to teach the proper use of words.

Fourth, use of words learned by association of required knowledge.

Mr. Shipp thinks it is a good idea to have the pupils to write stories but does not approve of telling them.

The subject "Composition" was opened by R. O. Chambers:

First, why teach it—relative value—how make it aid other studies.

Second, idioms—how acquired; how changed; how improved.

Third, course in composition.

Fourth, punctuation.

Fifth, relations of composition to thinking; of composition to talking; of composition to writing.

Mr. Chambers showed the advantage of teaching composition. All the teachers took part in the discussion, which was a very interesting one.

Superintendent Blatterman gave a brief talk on school laws after which the teacher's monthly reports were distributed.

After a brief recess the "query box" was opened which gave the teachers some good questions for discussion.

Professor Shipp gave his reason for teaching composition:

It aids in spelling.

It aids in thinking.

It aids in reading and speaking.

It gives practical work in grammar.

It gives practice in writing, cultivates neatness and tastes.

It gives power in outlines.

It gives power in correct and elegant expression.

Professor Shipp closed with a short talk on idioms and punctuation.

Mr. Milton Downing and Miss Mary Thornton were appointed Library Committee for the ensuing year.

The Reading Circle was organized with the following persons as members:

Eleanor Wallace, Maysville.

G. H. Turnipseed, Orangeburg.

Hayes Thomas, Maysville.

H. P. Wilson, Orangeburg.

Robert P. Moody, Rectorville.

W. T. Pollitt, Rectorville.

Lutie Wood, Sardis.

Cornelia Downing, Maysville.

O. M. Calvert, North Fork.

Daisy L. Dey, Maysville.

Maudie T. Downing, Maysville.

Sue Grant, Maysville.

Bessie A. Martin, Maysville.

J. W. Asbury, Maysville.

Harriette K. Owens, Washington.

Maudie Adair, Maysville.

Anna Hord, Wedonia.

Eva McDaniel, Minerva.

Mary Thornton, Peed.

Mary P. Chambers, Washington.

Clara Allen, North Fork.

Bettie A. Hanna, Dover.

The first meeting of the Reading Circle will be held the first Saturday in October at the Maysville High School.

The institute then adjourned for dinner.

AFTERNOON SESSION.

The institute was called to order at 1:30. After singing, Professor Shipp concluded the subject of "Strong and Weak Verbs."

The next subject on the program, "Physiology," was discussed by Miss Dorsey and Mr. G. H. Turnipseed. Physiology is one of the most interesting subjects presented to the teachers. The talks were given in such a manner that it seemed like a new subject.

Laws of hygiene—suggestions by Professor Shipp:

First, teach children how to eat.

Second, talk to them about sleeping.

Third, teach them to breathe correctly.

Fourth, teach them to be cleanly.

Fifth, teach them how to exercise properly.

Sixth, teach them what and how to drink.

After recess the subject of "Civics," in the first three grades, was discussed, by Miss Chambers, Mr. Chandler and Mr. J. W. Asbury. The subject was closed by Prof. Shipp who talked from the standpoint of facts and to the general satisfaction of the teachers.

"Reading." The discussion of this subject was opened by Mrs. M. P. Eckman, who does not believe in promoting children to higher books until fully qual-

ified. She also introduces newspapers and any supplementary reading that can be gotten easily.

"Silent Reading"—This was discussed by Mr. W. T. Berry and Mrs. Eckman. Mrs. Eckman gave a beautiful description of common schools as they were thirty years ago. From the description she gave there has been considerable change. She thinks it impossible to have loud studying in schools to-day. Mr. Berry here informed her if she would visit our schools, she would find some of the old-time studying.

Miss Mary E. Thornton discussed "The Child's Ideal in Reading." She believes in giving the child some books that it can understand; not allow a young child to read anything that is trashy; give it something to read that is high and noble.

Miss Hanna followed with some excellent remarks. Instructor Shipp closed with some timely remarks on the subject. Value of teaching reading:

First, because it is necessary in the acquisition of other branches.

Second, for the purpose of entertainment.

Third, it inculcates a literary taste.

Fourth, to read all books.

Fifth, to gain knowledge.

Sixth, to improve our language.

Dyke, druggist, Catskill, N. Y., says that Dr. King's New Discovery is undoubtedly the best Cough remedy; that he has used it in his family for eight years, and it has never failed to do all that is claimed for it. Why not try a remedy so long tried and tested? Trial bottles free at J. James Wood's drug store. Regular size 50c and \$1.

GERMANTOWN FAIR.

Attendance Yesterday Larger Than For Ten Years For First Day.

List of the Successful Exhibitors in the Arena—Big Crowds Expected.

The Germantown fair began yesterday under very favorable circumstances. The crowd present was not an immense one. Nothing of that kind was expected. The attendance, however, was larger than in ten years for first day. The rains have settled the dust, and with more pleasant weather, big crowds are anticipated the rest of the week. Following is a list of the successful exhibitors the first day:

Sheep—Southdowns.

Best buck one year and over, Morris Kirk, Mason County, \$5.

Best buck under one year, T. T. Asbury, Germantown, \$3.

KENTUCKY CROPS.

The Weather Has Been Generally Favorable During the Past Week.

[Weekly Weather-Crop Bulletin.]

The weather during the past week has been all that farmers could desire. No complaint of a serious character is made from any quarter of the State, excepting the drought-stricken counties of extreme northern portion. Farmers are jubilant over the bright prospect that is before them. All kinds of vegetation are in excellent condition, and it is interesting to the tourist no less than to the farmer to behold how all things grow. Correspondents invariably suggest some comparison as to when a more bountiful harvest was obtained, but it comes from several of them this week that the crops this year in their respective counties are the finest "since the days of Daniel Boone."

The predominating character of weather was partly cloudy which was occasionally interrupted by showers during the week. As a rule these showers were heaviest in the western counties, yet they were well distributed throughout the central, southern and mountain districts of the State. Unfortunately another week has passed without the occurrence of any rainfall reported from correspondents in those counties to the north of Fayette and Clark, where drought has prevailed since the first week in July.

In those counties stock and vegetation of all kinds have been suffering intensely from the want of rains, and pastures are said to be like fields of sandy soil, every semblance of grass being trampled by cattle which have to be driven some distance every day for water. It seems very probable, however, from the report of nearly two inches of rainfall at Cincinnati Monday night, August 26th, that an approximate amount, or, at least, favorable showers occurred throughout all the counties of the entire northern portion of Kentucky, thus relieving to some extent the deplorable situation of drought.

Reports regarding the corn crop continue the most encouraging, except where drought prevails. In some counties, notably in Spencer and Nelson, massive walls of corn, fifteen to seventeen feet high, greet the observer on all sides. Correspondents agree that the corn crop is already made, and there is now nothing to be feared in the light of a detriment except the possibility of an early frost. But the average date for the first "killing" frost, which is October 6th, seems to place the matured condition of the crop at that time beyond all reasonable expectation of injury from this source.

Tobacco is suffering to some extent from the effects of worms in some of the western counties, and there is also some complaint of firing. A most general distribution of rain would help it materially; yet, generally speaking, the crop is in excellent condition in all parts of the State, except in the drought-stricken district where, according to some correspondents, both corn and tobacco are almost beyond resuscitation. In the western and in some counties of the central portion cutting has begun, and some farmers have commenced housing. They are, however, not rushing this latter branch of the work.

Pastures are in fair condition everywhere. Clover is being cut in the western sections. Fall plowing is progressing and wheat sowing has begun.

Sorghum is a splendid crop. Mills for canning will open this week.

Fruit is everywhere abundant, and the complaint of trees breaking down continues to be quite general.

Vegetables have been benefited by the good growing weather that has prevailed. Late cabbage is said to be maturing too early, and is being damaged by the spotted beetle, the latest pest to the farmer. Both Irish and sweet potatoes are in good condition, although it is said that there is a little too much vine about the latter.
